Partner with Ceresti on GUIDE and realize \$5,000+/patient/year in cost savings

Ceresti's new model is optimized for ACOs who are unsure how to make GUIDE work for them.

Simple approach that delivers guaranteed savings and <u>does not confound</u> <u>GUIDE payments with your ACO expenses and benchmarks</u>

If you are an ACO that has decided not to apply for GUIDE because of the single TIN requirement, other complexities, or uncertainties regarding alignment with MSSP or REACH models, consider partnering with Ceresti. Ceresti is the leader in caregiver-enabled dementia care and has deployed a GUIDE-like dementia care program with **proven cost savings** to thousands of families for 7+ years.

Pay nothing to realize guaranteed cost savings

Ceresti guarantees that your cost savings will be larger than GUIDE's DCMP payments. You pay nothing to realize these cost savings.
